FARMERS POINT OUT FLAWS IN WATER BILL

New Method of Ascertaining Rights Would Be Expensive and Cumbersome

Representative farmers from thirty counties, members of the general committee of the Farmers' Protective League of California, unanimously decided to urge the defeat of Amendment No. 6, the Water Commission Act.

This action was taken at a meeting of the general committee September 12th, when the proposed measure was considered for several hours. Nearly every man present was a farmer using water for irrigation purposes.

The Water Commission Act has been referred to the people by petition after its adoption by the Legislature, and in addition to being opposed by irrigationists, the measure is not endorsed by any party platform, Progressive, Republican, Democratic and Prohibition leaders evidently realizing that there are many drastic provisions in the bill.

The Act is one of the longest and most complex problems submitted to the electors of California, containing about 17,000 words. It is being advocated by residents of cities, who virtually have no interest in water rights, just as it was passed by the legislature, despite the almost unanimous protest of the country members.

Radical changes are proposed in the present method of acquiring water rights, and in place of that in use in California nearly half a century it substitutes a most expensive and cumbersome system, which directly affects the irrigationist using the water for beneficial purposes.

Permit Required for Wells.

Anyone desiring to appropriate water, whether it be from a stream in Modoc County, Inyo County or Los Angeles County, must apply to a political commission, having its offices either in Sacramento or San Francisco, for a permit to make such appropriation. This likewise would apply to any underground stream of water. The result is that before a person could even sink a well into an underground stream of water he would have to employ an attorney, prepare an elaborate application, accompanied by maps and other data, and make application to this commission to determine whether he should be permitted to divert water from a surface stream or pump water from an underground stream in order to irrigate his lands, and if he does appropriate any water without making such application he is guilty of a trespass.

Elaborate Proceedings Required.

Before the Commission can grant an appropriation of water under the Act, it must ascertain whether there is unappropriated water in the stream. For this purpose an elaborate proceeding is provided to take place before the Commission, having all of the attributes of an ordinary judicial proceeding, providing for the hearing and the taking of testimony as to the rights of all persons on the stream. In other words, in order to permit an appropriation of a foot of water from any stream, they would have a proceeding for the determination of the rights of all the parties in that stream and all of its tributaries from the Sierra Nevada Mountains to San Francisco Bay, and it is expressly provided in the Act that any person having any claim to the water who shall fail to appear in the proceeding and submit his proof

> "shall be barred and estopped from subsequently asserting any rights theretofore acquired from the stream, stream system, lake or other body of water or portion of such stream, stream system, lake or other body of water embraced in such proceeding, and shall be held to have forfeited all rights to such water or the use of water theretofore claimed by him on such stream, stream system, lake or other body of water."

Must Produce Proof.

In case he does appear, he must, of course, employ an attorney, have surveys made, find witnesses and prove his rights, no matter how well founded they may be, and no matter how old they may be. If they should run back, as many rights do, to the sixties, or even earlier, he would have to get witnesses who could prove the use of water in those times, for it he failed to do so, some other appropriator might prove an appropriation at an earlier date than he was able to prove. In view of the fact that the witnesses to such appropriations are in many cases dead or scattered, and in view of the fact that many water rights are respected and observed because from time immemorial they have been known to be prior in right, and still it is difficult to produce evidence of such priority, the great injustice of compelling all of these parties to prove their rights, on pain of forfeiting them, is apparent.

After all this shall have been accomplished there can be no final decision, for the power of the commission is limited under the Constitution of the state, and the Water Commission could only make an ascertainment. Final adjudication would be had before courts of law and further expense incurred, besides the interminable delay incident to all legislation.

REDWOOD CITY HARBOR GREAT BUSINESS FACTOR

With each scoopful of mud raised by the giant dredger which for the last month has been at work dredging Redwood channel, the plans of the Harbor Company are nearing completion. It is estimated that sixty days will see the opening of a navigable stream with a low water depth of twenty-four feet to the bay shore line about a mile away and the completion of a development task which will place Redwood among the harbor cities of the West, says the San Francisco Chronicle.

The spur track, running from the main line of the Southern Pacific and skirting each of the factory sites laid out by the harbor company, is also nearing completion. The work of grading the roadbed and laying rails has progressed to the extent that the dirt used in filling in is hauled on the newly laid track, thus facilitating construction work and providing a test for the new line. The work is being keenly watched by Redwood citizens, who feel that the project, which has been financed by local and San Francisco capitalists, presages a stable growth, not only for Redwood, but for the entire peninsula.

Redwood has been generally regarded as a inland city, few knowing that for may years several of the largest plants here have shipped their products by water, the channel having, even at low tide a depth of twenty feet. The great Alaska fishing fleet has for years been landing here at the largest codfishing plant in the West. These big vessels have never had any difficulty reaching the harbor site, and this fact did much to arouse the interest of San Franciscans in the plan to make this a deep water harbor. George H. Rolph, brother of Mayor Rolph of San Francisco, and manager of the American-Hawaiian Sugar Company; Adolph Schilling, L. K. Wood, millionaire lumberman; W. J. Hotchkiss, president of Hobbs, Wall & Co., and Geo. A. Merrill, mayor of Redwood City, are the men who placed their faith in this city as a shipping and industrial center. Their faith has been justified by the fact that seven factory sites have already been sold to firms who will begin construction work just as soon as the dredging and railroad construction work has been finished. An eighth plant is already under way, a salt works located down the peninsula having started building several weeks ago.

Mrs. Warren Pillsbury, of Oakland, was the guest of Miss Ruth Mantz last week. Her mother, Mrs. Cora Merrill, was the guest of Mr. and Mrs. S. P. McCrea.

CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

For Governor,
JOHN D. FREDERICKS.

HAS EARNED PROMOTION.

As a minor peace officer of this county Michael Sheehan has made a record which certainly demonstrates his entire fitness for the office of sheriff, to which he now justly aspires. During the many years of his service as constable of the second township he has thoroughly demonstrated his fitness for the office. At all times he has been ready to respond to the call of duty, no matter what the personal risk or inconvenience. As an officer of the juvenile court, one of the most trying of positions, he has always shown that nice discrimination of judgment so necessary in an officer of this character. Coupled with an absolute fearlessness of personal danger, he is endowed with a trait of innate humanity which insures kindly treatment even to the confirmed criminal who may come within his charge.

HAS BEEN TRUE TO HIS TPUST.

With the possible exception of Governor, so far as concerns the business interests of the people of the State of California, the most important official to be selected at the coming general elction is that of United States Senator. Holding office for a comparatively long term, it is essential that the people should have some practical assurance of the position which that official is to take in matters which especially affect the business interests of the State, concerning which legislation in the near future may have a more important bearing. That no mistake would be made in the promotion of Congressman Joseph R. Knowland to this exalted office is assured by the record which he has made as a representative in the lower house of Congress. On every question which has come before the National law making body he has been true to the business interts of th State which he was chosen to represent.

A CONVINCING ARGUMENT.

That editor Pinckney of the San Mateo Times is ready to "play fair" in his announced stand in favor of Captain John D. Fredericks for Governor is made clear by the course which he has pursued. Announcing emphatically his stand on this important question in the issue of his paper of September 5th, Mr. Pinckney the followipg week gave space to an extended argument by B. F. Fly, campaign manager for the Democratic candidate, withholding at the time editorial reply to the communication. In the last issue of the Times, however, Mr. Pinckney, in reply to the communication to which he had given space, presents facts and figures which certainly amply justify the position which he has taken, facts which should be given consideration by every voter who desires the best interests of the state. From the editorial of the Times we quote:

"In order to further justify its position on the gubernatorial contests, taken in its issue of Sept. 5, it becomes necessary for The Times to reply to the article by Mr. B. F. Fly, which was given space in these columns last week, in answer to our previous editorial.

"By special request of Mr. Fly his article was not answered in the same issue—which was a great deal to ask, but which was granted in order to show that The Times was perfectly fair and willing to make unusal concessions.

"It is gratifying to note that the position taken by The Times is endorsed by nearly all the Democrats seen by the writer since, in this county, San Francisco and Sacramento. Thus we are far from being alone in the contention that in order to beat Johnson we must vote for Fredericks—the strongest opposition candidate.

"Mr. Fly advances arguments to show that Mr. Curtin can be elected in November and Captain Fredericks cannot be. We cannot admit, however, that they are either sound or convincing.

"He cites as one of the reasons, that Captain Fredericks lacked over 30,000 votes of a majority in his own party and assumes that all who voted for other Republican candidates are opposed to Fredericks and will vote against him in November, making no allowance for second choice.

"If the argument were sound it would apply with equal force to Mr. Curtin, who also received less than a third of his party's vote in the primary. This is always the case when there are several candidates for an important office; and the purpose of the primary is to eliminate the weaker candidates and clear the way for a majority expression.

"An analysis of the official figures of the primary will be interesting.

"The Republicans polled 267,273 votes for governor; the Progressives, 121,573 and the Democrats 117,920. The Republicans thus polled 27,780 more votes than the Democrats and Progressives combined and if all other votes be added the Republicans will still have a majority over all of several thousands.

"That many citizens will vote differently at the general election is admitted, but it is not reasonable to suppose that nearly half of Fredericks' following will desert him and divide between the other two candidates, which would be necessary to defeat him.

"Out of a total of 267,273 Republican ballots, 159,118 were against Fredericks. Out of 117,910 Democratic votes, 90,115 were against Curtin, vastly in excess of that against Fredericks within their own parties. So this argument falls down.

"The chances are that the changes will about offset each other and that the same relative position will be maintained, except that Johnson will likely show greater gains than either of the others. This is to be expected and msut be met by a rally to Fredericks of all independent thinking and non-partisan voters who believe the governor's defeat is necessary to the welfare of California.

"Examined from whatever point of view, the situation at present justifies the prediction that Fredericks will win, with Johnson a close second. Unless 'things are doing,' or are to be done, which we wot not of—and hints to that effect have been heard—there is no reason to expect a great land slide to anybody.

"We desire it distinctly understood that The Times holds Senator Curtin in the highest esteem; we believe he would make an admirable governor and if we could be persuaded that he had a chance of election he would have the hearty support of this paper.

"Mr. Fly's eloquent appeal to the editor to stay by the party candidate makes our duty a more painful one, but we earnestly believe that the good of the state is paramount and that partisanship alone is not the test of patriotism. If the good of the state demands the defeat of Governor Johnson then we should support the candidate who, under all the circumstances, seems best equipped and most likely to achieve that end.

"The defeat of Governor Johnson means the disintregration of the third party and in the general break-up they are more likely to turn to affiliation with the democrats than with the Republicans. Thus by beating them in detail the Democracy later will come into its own.

"Our course in this matter will not 'drag our glorious colors in the dust' nor will the editor be the only Democrat by many thousands, we believe, who will take this course."

Planning Lively Campaign.

E. E. Skinner, chairman of the county Republican committee, was in town yesterday perfecting arrangements for a whirl wind campaign in this section. A rally will be held in every town in the county at which the best speakers of the State will expound Republican doctrine. Mr. Skinner will arrange to have Samuel M. Shortridge, the well-known spell binder address the people of Redwood City shortly before the election. The campaign in San Mateo county will be one of the liveliest ever held on the peninsula. It is predicted that the county will give Fredericks a majority of fully 2000 votes. This would be a conservative figure, considering the big Republican registration.

Bazaar Great Success.

The bazaar for the benefit of Mt. Carmel Church opened Thursday night in the Alhambra under most favorable auspices. The hall was crowded with a throng eager to purchase the numerous pretty articles offered for sale by the ladies in charge. A neat program was rendered that called forth considerable applause. Last evening a still greater crowd filled the hall. This afternoon the ladies expect to dispose of many articles to those who will come in from the surrounding country to make purchases. An interesting program will be rendered this evening. The bazaar will continue until Monday evening.

Ready for Incorporation.

The petition of 120 voters of San Bruno asking the supervisors to call an election for the incorporation of that district as a municipal corporation was filed in the office of County Clerk Jos. H. Nash Thursday. The petition was filed by Mason & Locke, attorneys for the petitioners. The petition will be presented to the board of supervisors at their next regular meeting, October 5. It states that the territory included by the proposed boundaries has about 1500 inhabitants.

Riparian Interests Settled.

Judge Buck on last Saturday rendered a decision in the water rights suit of Jas. D. Skelly and others against S. H. Cowell and others The case was begun some time ago. The opinion will be read with interest by all riparian land owners in the county. Following is the decision in full:

"This suit is brought to determine the rights of thee respective parties to the us of the water in what is called Denniston creek. The creek is formed almost entirely from water flowing from springs on the land of defendant Torello and it would seem that the defendant Torello should have the first call to the use of the water rising on his own land. But under the law of this State, unless he has perfected his rights thereto in some way, his use of the water is subject to the rights of the lower riparian proprietors. In this case I shall follow the same rule in distributing this water I laid down in the case of the Halfmoon Bay Land Company vs. Cowell and in the future the right to use this water will be subject to revision if necessary. Possibly defendant Torello may never utilize and may never want to use a greater amount of water than that now taken out of the stream by him. Be that as it may the lower riparian proprietor will not be prevented from using the water on account of future possibilities. I shall also hold that defendant Cowell has not acquired a title to the water of this creek by adverse use. The land of the parties to this action subject to the use of the water of this stream will be divided in the following proportions, viz: Skelly family 102.59 acres; Debeiedetti & Daneri 47.24 acres; Mrs. Valencia 129.9 acres; E. Deneri 33 9 acres; Cowell 131 acres; Torello 131.01 acres."

BUCK, Judge.

New Actions in Superior Court.

S. Inouye has brought suit in the Superior Court against his wife, T. Inouye, for an interlocutory decree of divorce. The plaintiff resides in Redwood City and is a prominent member of the local Japanese colony. The couple was married in San Francisco on March 4, 1913. The complaint alleges that after the couple had lived together for a period of ten months the defendant ran away with an "affinity."

Albert Feasey has brought an action in the Superior Court against the Loop Lumber Company to recover damages in the sum of $4,000. The complaint alleges that plaintiff was employed by defendant as joiner at the company's mill at San Mateo, on October 27, 1913, when he was severely injured through the carelessness and negligence of the company. He was laid up for 54 days. Besides damages plaintiff also asks for $283, money paid out for doctor bill and medicine, making a total of $4283.

MARRIED MEN WIN FROM BACHELORS

GREAT BENEFIT BASE-BALL GAME SUNDAY RESULTS IN TWENTY-TO-NINE SCORE.

Motion Pictures Will Depict the Game's Features As Well as a Very Humorous Side-Play.

The big baseball event is over and the bachelors are still celebrating their 20-to-9 victory over their married bothers who are keeping under cover and can only be seen in the dark hours of the night "beating" their way homeward.

In the great game Sunday Bill Curran and Al. Michaels opposed eachother in the box. Bill only walked six, allowing eleven hits, some of which were too easy for his outfielders to judge, and struck out twelve. Al. did almost as well. He did not walk a man, but he hit six, so that squared matters and allowed eleven hits and struck out six.

Judge Lampkin only made six errors, all of which figured in losing the game. The Judge must be getting old, he couldn't judge third strikes at all. The going was too tough for Bill Barg and he did the "Del Howard" for six innings Moody taking his place and showing speed. He almost ran over Joe Simmons on the bags. Joe was all in from trying to keep ahead of Moody. Dan Stafford should be charged with battery for spilling Fox as he did. It was cruel. Roy Curran ought to have brought out a tennis net to stop ground balls. They went through him like water through a sieve. Jack Shields showed us all how to tag base runners and if Connie Mack doesn't sign him for the world's series he will lose, as Jack will no doubt be grabbed by Stallings. As for the outfields, Heiner, Bernzott, Neuman and Collins for the benedicts, and Liguori, who later played third, Moody, and Simmons for the bachelors, the least said the better, just imagine the worst.

Heiner was arrested after the game for cruelty to animals, he walked all over somebody's pet canine and the dog is now a sausage. Bernzott broke his back fanning out, only four times. Collins had to get Heiner to run for him and believe us, Heiner can run. The player who was to run for Bill Curran in the sixth was far, far away when Bill hit the ball. Result, one perfectly good hit gone. A grand total of twenty errors were piled up, seventeen for the married men and three for the single players.

Although the game was full of comic plays, several great fielding stunts were pulled off by Beeger, Fox and Allain that will long be remembered. When plays such as Beeger and Fox pulled off break up nice rallies, it certainly takes the "pep" out of the opposition. Two base double plays were made by the bachelors. The great crowd enjoyed every play and rooted till the last man was out.

The great feature of the day was the taking of the moving pictures, which will be shown later at the Bell theatre, of which the following is the synopsis:

The Redwood married men are tired of the close confinement of the home and of the nightly routine of having to rock the baby to sleep, and are anxious for a big night out among "the boys." At a meeting of the Benedict Club one of the members is struck with the bright idea of playing the single men a game of ball, the losers to banquet the winners. The idea is hailed with great enthusiasm and one of the members is delegated to deliver the challenge. The single men eagerly accept and promise to keep the reason of the affair a secret for the sake of their married friends. Ten minutes later one of the bachelors has told his sweethearts all about it, who in turn meets her friend on the street and sends the information along. This conversation is overheard by one of the married women, who wrathfully imparts the news to her married allies and they determine to keep a sharp eye on the doings of their respective husbands.

The big game comes. The whole town turns out to view the game, the wives and sweethearts right to the front. The single men prove victorious and immediately after the game they bundle their sweethearts into waiting autos and away they head for the banquet.

Just as everything is looking rosy, the motor cop rushes up and pinches the entire bunch for speeding. Trial is held and the speeders fined. Being still in their baseball suits they are without a cent of money and are compelled to go to jail. The girls, rudely separated from their sweethearts, leave the court weeping bitterly.

At this juncture the married men, closely eyed by their wives, arrive on the scene. They grasp the situation and one of them conceives a bright idea. A word, an exchange of coin with the cop, and he is gone. In a few minutes the married women are in hysterics. Mice have been let loose among them, and the married men, quick to see the game planned by their comrade, run off with the girls during the confusion. In the meantime the town sport has played the hero part in bailing out the imprisoned bachelors, who soon learned of the trick the benedicts have played on them. Bundling the wives into autos, they give chase to the others, whom they overtake seated at the banquet table. A scene of confusion results, but finally the entire affair is straightened out to the happiness of all.

"POLISHER PEBBLES" WILL BE GIVEN NOV. 6 AND 7.

November 6 and 7 have been chosen for the dates for the production of the highschool operetta this fall. Mr. Carrington's new operetta, "Polished Pebbles," will be used and there seems to be no question but what it will be exceedingly interesting and attractive. The country setting will not require gorgeous apparel, but it will be one of those which appeals to everybody. The music is light, catchy and popular. It will be a kind people will remember and whistle. For this reason no copies will be sold until after the production. The students for the parts have been chosen after a great deal of consideration as Mr. Carrington has set such a high standard, he wants each of his productions to measure up to it. Because of the success of the "Windmills of Holland," which required a second production, it has been decided to use two nights this fall that everyone might have a good seat and enjoy the performance. Tickets will be on sale about the middle of October and it is urged that the public buy early and reserve seats promptly.

ASHTMA AND HAY FEVER A GUARANTEED TREATMENT

"I have arranged with P. A. Ryan so that every sufferer from Asthma, Hay Fever or Bronchial Asthma in Redwood City can try my treatment entirely at my risk," Dr. Rudolph Schiffmann announces. He says: "Buy a 50-cent package of my Asthmador or Asthmador Cigarettes, try it, and if it does not afford you immediate relief, or if you do not find it the best remedy you have ever used, take it back to P. A. Ryan and they will return your money, cheerfully and without any question whatever. After seeing the grateful relief it has afforded in hundreds of cases, which had been considered incurable, and which had been given up in despair, I know what it will do. I am so sure that it will do the same with others that I am not afraid to guarantee it will relieve instantaneously. The druggist handling Asthmador will return your money if you say so. You are to be the sole judge and under this positive guarantee, absolutely no risk is run in buying Asthmador."

Persons living elsewhere will be supplied under the same guarantee by their local druggist or direct by Dr. R. Schiffmann, St. Paul, Minn. Advt.

EIGHT-HOUR LAW WOULD BE UNCONSTITUTIONAL.

Attorney General Webb, having given an opinion to Governor Johnson that the proposed Universal Eight-Hour Bill would be unconstitutional if adopted, the Farmers' Protective League of California announces that its vigorous campaign to defeat the measure at the polls will be continued.

Attorney General Webb declares that the proposed bill controvenes the fourteenth Amendment to the Federal Constitution.

"The Attorney General's opinion confirm the belief often expressed by the officers of the League," said Arthur Dunn, Secretary and Manager of the League, "but it must be remembered that it would be necessary to have adjudicated the legality of the measure, if it were adopted, and we are not certain that the court would accept the logic of the Attorney General's opinion, especially if a majority of the voters had expressed themselves as favoring the law. We cannot permit this cheering decision to lull to sleep the opposition to the proposed measure. Unless the fight is continued until the last vote shall have been polled, there is very grave danger that the bill will be enacted, and a harmful impression would go forth that California was committed to a severe restriction of individual effort.

"Farmers and all citizens having at heart the welfare of California must be up and doing from now until election day to defeat the proposed Universal Eight-Hour Bill. The League is informed reliably that the proponent of the measure, the Socialist party, will redouble its efforts to have the bill adopted as a protest against the Attorney General's opinion, and, if successful, will insist on carrying the proposition through all State courts and to the United States Supreme Court. California cannot afford to create a chaotic condition even temporarily. The Universal Eight-Hour Bill must be defeated decisively in November."

J. RAYNAL TELLS OF WAR CONDITIONS IN EUROPE

J. J. Read, the local real estate man, received a letter yesterday from his old friend, Joachim Raynal a former laundryman of this city who left here a year ago to visit his old home in France. He is now engaged in battle and is at the front, fighting for his country. The letter is quite optomistic, but through it runs a vein of patriotism that is admired. The letter is as follows:

"Montauban, Carn A Laronne, September the 12, 1914—Mr. John J. Read, Redwood City, California, U. S. A. Dear Sir: I am very glad to have your letter and see that all the sympathy of the United States is for our lovely country. You may be sure, Mr. Read, that the people of France are not a people for war, but Germany was so hungry for everything that in a moment of folly she declared war on France. Now the war is all over Europe and all the people are under arms. Blieve me, Mr. Read, the French country is not dead yet and we have a big lot of soldiers.

"We have all the money we want. France is a very rich country and I think in a very few months we will be in Germany and force those Germans to sign for peace in Berlin. I am in the army and I think we will go to the front very soon, but be sure that I will do the best. I don't care for what may happen. We are making a war of civalization. The people of Germany are a barbarous people. What they do in our country you never can believe.

"Queustion of the money, don't send any. I have a check here and connot have the change. If I am killed on the battlefield, my wife will come after the war and get everything that belongs to us. If not we will come back very soon after the war.

"Mr. Read, maybe this letter is the last I will ever send you. We never know what may happen. Question of my property, do the best you can.

"Remember me to all my friends and talk to Mr. Larrouy. Tell him we are ready to fight for the life of our dear France. Send my letters to my wife as we don't know what may happen.

"Well, good-bye, dear old friend, and I hope to see you in a few months, I remain, Yours very truly,

JOACHIM RAYNAL.

Bianchi Acquitted by Jury.

The case of the people vs. G. Bianchi was tried before a jury yesterday in Judge Lampkin's court. Defendant is a prominent fruit grower and businessman in Mountain View, and is connected with the Mountain View Fruit Company. He was accused by another fruit man of taking some of his boxes from a store at Redwood City. The case, however, did not reach the jury, as it was thrown out of court as no case was made out against the defendant. It was conclusively shown that the boxes belonged to Bianchi, who had several prominent business men, both in this and Santa Clara counties testify as to his good reputation. There is some talk that he will begin a damage suit against the prosecuting witness. Bianchi's standing in Mountain View, is of the highest character.

Rare Work of Art Lost.

A valuable painting which belonged at one time to the famous collection owned by William Ralston, the pioneer banker, has been missing for sevral months from the old Ralston home at Belmont which is now occupied by the Gardner Sanitarium. Ralston who was one of the first presidents of the Bank of California, was an enthusiastic art collector and his country home at Belmont was filled with rare paintings, the work of masters. AUTO ACCIDENT VICTIM LAID TO FINAL REST

St. Peter's Episcopal church was crowded on Thursday with the friends of Joseph Peterson, who passed away at the Red Cross hospital at San Mateo on Monday afternoon as the result of an automobile accident near Redwood City on Sunday night. There was scarcely seating room in the little edifice as Rev. Crabtree began the services. All was sadness. The pathetic death of the young man caused the deepest" sympathy for his family. A large number of friends followed the remains to their last resting place in Union cemetery.

Frank J. Haaker, Thomas J. Coats, Joseph Peterson and J. Dyke were returning to their homes at Woodside in Haaker's machine when the accident occurred. Haaker and Coats, who were only slightly injured, declared that their little Ford touring car was stuck by a big gray machine which suddenly plunged out of the road ahead at breakneck speed.

The Haaker machine turned a complete somersault. Haaker and Coats were thrown clear but Peterson and Dyke were not so fortunate. Peterson, who is better known as "Joe Pete," sustained a fractured skull and Dyke, who is known as "Klondyke," suffered severe contusions of the face and body.

Efforts to find the mysterious gray automobile which is said to have collided with Haaker's machine have proved unsuccessful, and the theory has been advanced that the mishap occurred with such suddenness that none of the occupants of the Haaker car knew exactly what happened. It is stated by some who have examined the damaged car that one of the tires exploded and the auto turned turtle.

Joe Peterson, whose death was caused by the accident, was 42 years of age and the father of two orphan children, his wife, who was a Miss Early of Woodside, having died five years ago. Peterson was a millman by occupation and was well and favorably known to many.

The whole issue of said bonds shall not exceed the sum of ten million dollars, and said bonds shall bear interest at the rate of four per centum per annum, from the date of issuance thereof, and both principal and interest shall be payable in gold coin of the present standard of value, and they shall be payable at such place in the United States as may be designated in the bonds (full authority to designate such place being hereby conferred on the governor who shall sign said bonds), at the expiration of seventy-four years from their date, subject, however, to redemption by lot as in this act hereinafter provided. Said bonds shall bear date the second day of July, A. D. nineteen hundred and fifteen, and shall be made payable on the second day of July, nineteen hunder and eighty-nine. At the expiration of seventy-four years from the date of said bonds, all bonds sold shall cease to bear interest and likewise all bonds redeemed by lot shall cease to bear interest as in this act provided, and the said state treasurer shall call in, forthwith pay and cancel the same, out of the moneys in the third San Francisco seawall sinking fund provided for in this act, and, he shall on the first Monday of July, nineteen hundred and eighty-nine, also cancel and destroy all bonds not theretofore sold. Each bond shall contain a clause that it is subject to redemption by lot after the year nineteen hundred and fifteen.

SEC. 2. Interest coupons shall be attached to each of said bonds so that such coupons may be removed without injury to, or mutilation of the bond. But no interest on any of said bonds shall be paid for any time which may intervene between the date of any of said bonds and the issue and sale thereof to a purchaser, unless such accrued interest shall have been by the purchaser of said bonds, paid to the state at the time of such sale.

SEC. 3. The sum of five thousand dollars is hereby appropriated to pay the expenses that may be incurred by the state treasurer in having said bonds prepared. Said amount shall be paid out of the state treasury upon warrants duly drawn by the state controller upon demands audited by the board of state harbor commissioners and approved by either the governor or state engineer of the city and county of San Francisco, who shall only approve the same when in their judgment the actual harbor receipts, and those reasonably anticipated, will justify the issuance of bonds and the consequent increased burden on harbor receipts; but said treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date; and he may, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof, offered, to such time and place as he may select. The cost of such publications shall be paid out of the San Francisco harbor improvement fund, on controller's warrants duly drawn for the purpose. The proceeds of the sale of such bonds except such amount as may have been paid as accrued interest thereon shall be forthwith paid over by said treasurer into the treasury, and must be by him kept in a separate fund to be known and designated as the "third San Francisco seawall sinking fund" which fund is hereby established, and shall be used exclusively for the construction of wharves, piers, seawall, state railroad, spurs, betterments and appurtenances and necessary dredging and filling in connection therewith on the water front of the city and county of San Francisco. Drafts and warrants upon said fund shall be drawn upon and shall be paid out of said fund in the same manner as drafts and warrants are drawn upon and paid out of the San Francisco harbor improvement fund. The amount that shall have been paid at the sale of said bonds as accrued interest on the bonds sold shall be, by the state treasurer, immediately after such sale, paid into the treasury of the state and placed in the "third San Francisco seawall sinking fund."

Said state treasurer shall, on controller's warrants duly drawn for that purpose, employ the moneys in said sinking fund in the purchase of the bonds of the United States or of the State of California, including any bonds authorized, issued and theretofore sold under authority of this act or of the several counties or municipalities of the State of California, which said bonds shall be sold at such price or acceptacle, appropriately labeled; but he must keep always on hand a sufficient amount of money in said sinking fund with which to pay the interest on such of the state bonds hereby provided to be issued as may have heretofore been sold. The state treasurer may only purchase such bonds authorized and issued under authority of this act with moneys in said sinking fund as shall have theretofore been sold. And to provide means for the payment of interest on the bonds that may be sold and outstanding, said treasurer shall monthly take from the San Francisco harbor improvement fund, and pay into said seawall sinking fund, an amount equal to the monthly interest then due on all bonds then sold, delivered and outstanding. The board of state harbor commissioners are hereby authorized and directed by the collection of dockage, tolls, rents, wharfage and cranage to collect a sum of money sufficient for the purposes of this act, over and above the amount limited by section two thousand five hundred dollars for each sale so advertised. The cost of such publication shall be paid out of the San Francisco harbor improvement fund, on controller's warrants duly drawn for the purpose. The proceeds of the sale of such bonds except such amount as may have been paid as accrued interest thereon shall be forthwith paid over by said treasurer into the treasury, and must be by him kept in a separate fund to be known and designated as the "third San Francisco seawall fund"
